Precision with
45mm
disc blade

PATENT PENDING

Welcome Addition to OLFA Rotary Cutter Range!

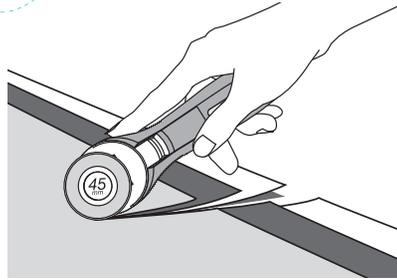

CAT.NO.187

OLFA in AQUA

PATENT PENDING

The new 45mm Rotary Cutter RTY-2/C

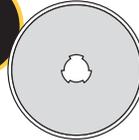

may not be a luxurious model with elaborate blade covers, rubber grip and/or safety blade lock, but a great combination of the RB45 disc blade, quick/easy blade replacement and vivid color.

Easy Blade Change

with just a click! No more trouble losing washers and nuts.

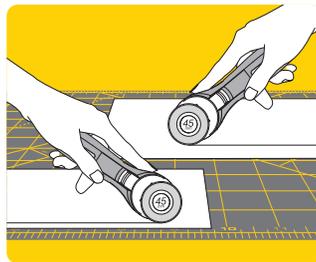

45mm

MODEL/MODÈLE/MODELO

RB45

OLFA's premium quality 45mm Rotary Blade for superior sharpness and durability.

Both Left- and Right-handed users.

Use with OLFA self-healing rotary mats.

The RTY-2/C is not in yellow, but a genuine product from OLFA!

Since 1979

OLFA takes great pride in producing the finest Rotary Cutters. OLFA has been the originator of the rotary cutters since 1979, when Olfa's founder Yoshio Okada invented and produced the world's first rotary cutter on a commercial basis.

WARNING

1. Blade extremely sharp. Handle with care.
2. Wear safety goggles and gloves.
3. Keep out of the reach of children.
